

Case Study

Introduction of seminar management | AWO Saarland

TASK

The AWO Landesverband Saarland e.V. was looking for a process-oriented system to map all internal trainings as well as mandatory trainings. In addition to digitizing the processes and introducing an e-learning tool for the elearning tool for the area of mandatory training, was also to obtain the basis for settina UD а knowledge management system.

PARAMETERS

Industry: Social industry Project duration/period: 15 months Project title: Compulsory training Number of authors Producer: 50 Number of end users/ learners: > 4,000 **Application:** Various

SOLUTION & RESULT

In course management, among other things, the possibilities of mapping logical course sequences and mapping periodicities for automated course repetitions were realized. The tests can be displayed in a variety of ways and, in addition to the evaluation options, also enable the verification of the training courses carried out at employee level.

Based on the datango collaborator, the comprehensive seminar management with numerous new functionalities was created in а joint development project.In the future, AWO will be able to map its processes in the field of education management in a single system and has thus taken another important digitization step in its strategy.

The AWO is a modern, free, nondenominational welfare association whose origins lie in the workers' movement. The regional association of the AWO in Saarland is a provider of social assistance services, including vouth and family assistance. integration and assistance for the elderly. With over 300 facilities in the Saarland and around 5200 employees, it is one of the largest employers in the Saarland.
